REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the calculations of the particular ratio of constituents of "pigment fraction to size fraction" at 90/10 to 10/90, as presented by applicants in the response of 11 September 2006 are deemed to be correct. The Examiner regrets any delay due to his error in calculation. As such, the instantly claimed invention cannot be seen to be unpatentable over Aho et al (WO 98/54410), as presented earlier. No prior art has been found or presented that either teaches or fairly suggests the method of production of a size composition for paper, board and the like, as herein recited and claimed. Since there are no outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
